I. INTRODUCTION 1

Overview 1

I.A. MEASURING DEVELOPMENT 5

Note I.A.1. The Evolution of Measures of Development 5
Selection I.A.1. Why Are Services Cheaper in the Poor Countries? 13
Comment I.A.1. The Productivity and Factor Proportions Explanations Again 17
Selection I.A.2. Burden of Poverty 18
Comment I.A.2. Capabilities and Entitlements 30

I.B. ECONOMIC PERFORMANCE OF LESS DEVELOPED COUNTRIES:

THE RECENT PAST 35
Selection I.B.1. The East Asian Miracle 36
Selection I.B.2. East Asian Crisis: An Overview 42
Selection I.B.3. Completing China’s Move to the Market 48
Selection I.B.5. The Launching of the Reforms 58
Note I.B.1. The Triumph of Laissez-Faire? 64
Selection I.B.7. Explaining Africa’s Development Experiences 65

I.C. THE DISCIPLINE OF DEVELOPMENT ECONOMICS 69

Note I.C.1. Evolution of Development Economics 69
Comment I.C.1. Classical Growth Theory 72
Comment I.C.2. Development Economics as a Special Subject 73
Note I.C.2. New Endogenous Growth Theory 75
## II. HISTORICAL PERSPECTIVE

Overview: The Division of the World

| Selection II.1. The Spread of Economic Growth to the Third World: 1850–1980 | 80 |
| Note II.1. Why Not Export First? | 102 |
| Note II.2. The Lewis Model of the World Economy | 104 |

| Selection II.2. The Division of the World and the Factoral Terms of Trade | 97 |

| Selection II.3. Agricultural Productivity, Comparative Advantage, and Economic Growth | 107 |
| Comment II.2. Income Elasticity of Demand for Food in the Matsuyama Model | 110 |

| Selection II.4. Income Distribution, Market Size, and Industrialization | 111 |
| Comment II.3. Minimum Market Size in the Murphy–Shleifer–Vishny Model | 113 |

| Selection II.5. Divergence, Big Time | 114 |

## III. SAVINGS AND INVESTMENT

Overview: Savings—The Engine of Growth?

| Note III.1. The AK Model | 123 |
| Selection III.1. Is Fixed Investment the Key to Economic Growth? | 126 |

| Selection III.2. Interest Rates in the Organized Money Markets of Underdeveloped Countries and Interest Rates Outside the Organized Money Markets of Underdeveloped Countries | 129 |

| Selection III.3. Financial Liberalization in Retrospect: Interest Rate Policies in LDCs | 133 |
| Comment III.1. Financial Liberalization | 136 |

| Selection III.5. Financial Development and Economic Growth: Views and Agenda | 141 |

| Selection III.6. Good Policy or Good Luck? Country Growth Performance and Temporary Shocks | 147 |
| Comment III.2. Policies Versus Shocks: A Closer Look | 153 |

## IV. INTERNATIONAL TRADE AND TECHNOLOGY TRANSFER

Overview

| IV.A. TRADE | 159 |

| Selection IV.A.1. Natural Resource Abundance and Economic Growth | 161 |
| Note IV.A.1. Import-substituting Industrialization and the Infant-Industry Argument | 168 |

| Selection IV.A.2. Typology in Development Theory: Retrospective and Prospects | 170 |
| Selection IV.A.3. An Exposition and Exploration of Krueger’s Trade Model | 175 |

| Comment IV.A.1. Moving Up the Ladder and Changes in Relative Costs of Factors of Production | 178 |
Selection IV.A.5. Exchange Control, Liberalization, and Economic Development 187
Selection IV.A.6. Trade Policy Reform 191
Comment IV.A.2. Stabilization-cum-Liberalization Programs 193
Selection IV.A.7. Getting Interventions Right: How South Korea and Taiwan Grew Rich 195
Note IV.A.2. Tradeability of Intermediate Goods, Linkages, and Bottlenecks 202

IV.B. FOREIGN CONTACT AND TECHNOLOGY TRANSFER 204
Note IV.B.1. Learning in International Production Networks 204
Selection IV.B.1. Technology Gaps Between Industrial and Developing Countries: Are There Dividends for Latecomers? 206
Selection IV.B.2. The Benefits of FDI 209
Note IV.B.2. Trade as Enemy, Handmaiden, and Engine of Growth 211

V. HUMAN RESOURCES 213
Overview 213

V.A. EDUCATION 216
Note V.A.1. Three Views of the Contribution of Education to Economic Growth 216
Selection V.A.2. Economic Impact of Education 223
Comment V.A.1. Ability Differences, Spillovers, and the Returns to Education 226
Comment V.A.2. Education and Development 227
Selection V.A.3. Interpreting Recent Research on Schooling in Developing Countries 229
Selection V.A.4. Schooling Quality in a Cross Section of Countries 234
Selection V.A.5. Creating Human Capital 237

V.B. POPULATION 241
Note V.B.1. The Size of the World’s Population and the Size of the Average Family 241
Selection VB.1. Economic Approaches to Population Growth 242

V.C. HEALTH AND NUTRITION 249
Selection V.C.1. Health and Nutrition 254
Selection V.C.2. Investing in Health 257

V.D. GENDER AND DEVELOPMENT 263
Selection V.D.1. Women’s Education in Developing Countries: An Overview 263
VII.C. MICROECONOMICS OF THE RURAL SECTOR

Selection VII.C.1. The New Development Economics

Selection VII.C.3. The New Institutional Economics and Development Theory

Selection VII.C.4. Rural Credit Markets and Institutions in Developing Countries: Lessons for Policy Analysis from Practice and Modern Theory

Selection VII.C.5. A Survey of Agricultural Household Models: Recent Findings and Policy Implications

Comment VII.C.1. Supply Functions and Price Responsiveness

VII.D. AGRICULTURAL PRICING POLICY AND URBAN BIAS

Note VII.D.1. Agricultural Pricing Policy

Selection VII.D.1. Urban Bias

Comment VII.D.1. Rural–Urban Terms of Trade

Comment VII.D.2. The Rural–Urban Divide

VIII. INCOME DISTRIBUTION

Overview

Note VIII.1. Measurement of Income Inequality

VIII.A. THE IMPACT OF DEVELOPMENT ON INCOME DISTRIBUTION

Selection VIII.A.1. Economic Growth and Income Inequality

Selection VIII.A.2. Inequality, Poverty, and Development

Selection VIII.A.3. Growth and Income Distribution

Selection VIII.A.4. A Note on the U Hypothesis Relating Income Inequality and Economic Development

Selection VIII.A.5. Economic Development, Urban Underemployment, and Income Inequality

Comment VIII.A.1. The Informal Sector, Intraurban Inequality, and the Inverted U

VIII.B. THE IMPACT OF INCOME DISTRIBUTION ON DEVELOPMENT

Selection VIII.B.1. Distributive Politics and Economic Growth

Selection VIII.B.2. Income Distribution, Political Instability, and Investment
CONTENTS

VIII.C. CASE STUDIES 409
  Selection VIII.C.1. Economic Growth and Income Distribution in Taiwan, 1953–64 409
  Selection VIII.C.2. Brazilian Size Distribution of Income 417

IX. POLITICAL ECONOMY 421
  Overview 421
  IX.A. THE (PROPER) ROLE OF THE STATE IN LESS DEVELOPED COUNTRIES 426
    Selection IX.A.1. Public Policy and the Economics of Development 426
      Comment IX.A.1. Development Planning 431
      Comment IX.A.2. Governing the Market 432
  IX.B. RENT SEEKING AND GOVERNMENT FAILURE 434
    Note IX.B.1. What Are Rents? 434
    Selection IX.B.1. The Political Economy of the Rent-Seeking Society 437
      Comment IX.B.1. Complete Rent Dissipation Through Competitive Rent Seeking in the Harris–Todaro Model 440
      Comment IX.B.2. The Relationship Between Rent Seeking and Corruption 440
    Selection IX.B.2. Neoclassical Political Economy, the State, and Economic Development 442
    Selection IX.B.3. India 446
    Selection IX.B.4. Governments and Agricultural Markets in Africa 450
  IX.C. STATE CAPACITY 471
    Selection IX.C.1. Institutions and Economic Performance:
      Cross-Country Tests Using Alternative Institutional Measures 471
    Selection IX.C.2. The State as Problem and Solution:
      Predation, Embedded Autonomy, and Structural Change 476
    Selection IX.C.3. Taking Trade Policy Seriously:
      Export Subsidization as a Case Study in Policy Effectiveness 495
    Selection IX.C.4. Bureaucratic Structure and Bureaucratic Performance in Less Developed Countries 508

X. DEVELOPMENT AND THE ENVIRONMENT 517
  Overview: Environmental Problems in Less Versus More Developed Countries 517
  Selection X.1. Development and the Environment 520
    Comment X.1. The “Environmental Kuznets Curve” 529
  Selection X.2. North–South Trade and the Global Environment 531

EXHIBITS

*Exhibit I.A.1. Basic Indicators*  8

*Exhibit I.A.2. Exchange-Rate-Deviation Index in Relation to Real GDP per Capita, Thirty-four Countries, 1975.*  12

*Exhibit I.A.3. The Human Development Index*  21

*Exhibit I.A.4. Similar Income, Different Human Development, 1993*  23

*Exhibit I.A.5. Human Development Index Rankings*  24

*Exhibit I.B.1. Balance Sheet of Human Development—Developing Countries*  35

*Exhibit III.1. Economic and Social Indicators in Fast and Slow Growth Economies*  122

*Exhibit IV.A.1. Share of Primary Products in Merchandise Exports and Index of Export Concentration*  159

*Exhibit V.C.1. Health Indicators*  249

*Exhibit V.C.2. Life Expectancies and Health Expenditures in Selected Countries*  262

*Exhibit VI.1. Self-employment and Unpaid Family Workers Circa 1990*  295

*Exhibit VII.D.1. Rural and Urban Poverty in the 1980s*  373

*Exhibit IX.A.1. Market Failure and State Intervention*  431
PREFACE

The economics of development is one of the most exciting subjects in social science. Why, two centuries after the Industrial Revolution, are poverty and its attendant ills so prevalent in most of the world? And what can be done about it? Nobel Prize–winning economist Robert Lucas wrote of the questions addressed by development economics, “Once one starts to think about them, it is hard to think about anything else” [“On the Mechanics of Economic Development,” *Journal of Monetary Economics* 22 (July 1988), p. 5].

Development economics is also a very frustrating subject. Unlike most areas within economics, there exists no consensus on what the student should know. Two scholars can with equal justification write two completely different textbooks.

The aim of this book is to convey as much of the excitement of development economics and as little of the frustration as possible. To this end we have avoided writing the ordinary type of textbook, instead culling the most insightful readings from the diffuse field of development and bringing them into conceptual order. By using this distinctive approach we allow for a variety of perspectives while keeping in sight the most important overarching themes. The section “Using This Book” (p. xix) describes our strategy of combining excerpted readings (“Selections”) with our own “Overviews,” “Notes,” “Comments,” and “Exhibits.”

After being responsible for the previous six editions of *Leading Issues in Economic Development* over the past 35 years, Professor Meier has now selected Professor Rauch to upgrade and modernize this seventh edition and to perpetuate subsequent editions. This edition is mainly Professor Rauch’s effort. It reflects his desire to strengthen the analytical and quantitative dimensions of development economics and to illuminate contemporary—and future—problems of development policymaking. In all, it provides fresh and serious attention to the interplay between development experience, changing views of economists, and policy.

While this seventh edition maintains the format of previous editions, the inclusion of a new author has brought many changes relative to the sixth edition:

- New chapters on income distribution and on development and the environment have been added while other chapters have been consolidated.
- Most of the Selections and Notes are new.
- The representation in the Selections of articles from leading professional journals has increased.
- The Selections make greater use of statistical analysis, and an Appendix, “How to Read a Regression Table,” has been added to ensure that these Selections are easily accessible to all readers.

We wish to express our appreciation to the authors and publishers who have granted permission to use excerpts from publications for which copyrights exist. Specific acknowledgment is given with each Selection. Some parts of the original versions of the excerpted materials have been omitted out of consideration for relevance and to avoid repetition. In some instances, tables and diagrams have been renumbered and the footnotes have been deleted or renumbered.

We would like to thank a number of extremely busy people who generously took time out to provide advice or to comment on portions of the manuscript: Richard Carson, Graham Elliott, Peter Evans, and Dani Rodrik. We would also like to acknowledge the valuable research assistance of Neville Francis, Timothy Kane, Paula Lindsay, and Donald McCubbin. James Rauch wishes to thank his wife, Doris
Bittar, for making room in her life for this book during its final months of preparation. Kenneth MacLeod has been a very helpful and patient editor. Finally, we are grateful to the entire profession of social scientists whose writings on development provide the foundation for this volume.
USING THIS BOOK

Instructors and students can use this book more like a main text or more like a supplementary reader. To facilitate the latter approach the contents have been designed to allow individual freedom of choice in deciding what chapters and Selections to read and in what sequence. If the former approach is taken, the organizational and thematic guidance of the chapter Overviews can be followed and the chapters can be read in numerical order.

The chapters include the following materials:

Overviews: These are introductory essays that show how the subsequent chapter materials fit together and elucidate one or more overarching themes. They sometimes contain ideas that are not explicitly presented by the other chapter materials.

Selections: These are the core of the book. They present a broad sample of the major contributions by scholars and practitioners on the central issues in economic development. Each Selection has been edited for the sake of brevity and to highlight the points of greatest relevance for the chapter in which it appears.

Notes: These serve two purposes. One is to expound important ideas that are extant in the literature but are not presented as clearly or simply as we would like. The other is to present more original material that complements the Selections.

Comments: Like the Notes, these serve two purposes. One is to clarify or expand upon the immediately preceding Selection. The other is to suggest additional readings on the subject of the immediately preceding Selection.

Exhibits: These are tables and charts that provide empirical illustrations and data on topics under discussion. Starting with Selection III.1, some Selections include regression tables. Readers without econometric training are urged to refer to the Appendix to get the most insight from these Selections.
INDEX OF SELECTION AUTHORS

Ahluwalia, Montek S., 387–90
Alesina, Alberto, 401–3, 404–8
Balassa, Bela, 180–86
Banerjee, Biswajit, 323–27
Barber, Edward, 554–59
Barro, Robert J., 234–36
Bates, Robert H., 450–55
Bardhan, Pranab, 359–60, 446–49
Bhagwati, Jagdish N., 13–17, 187–90
Bhagwati, Jagdish N., 13–17, 187–90
Binswanger, Hans P., 356–58
Birdsall, Nancy, 242–48
Blomström, Magnus, 126–28
Braverman, A., 361–63
Buvinic, Mayra, 275–79
Cardoso, Eliana, 52–57
Chichilnisky, Graciela, 531–33
Collier, Paul, 280–82
Deacon, Robert T., 535–43
Dedardorff, Alan V., 175–78
Deolalikar, Anil B., 254–56
Easterly, William, 147–53, 456–70
Edwards, Sebastian, 58–60
Evans, Peter B., 476–94, 508–15
Fei, John C. H., 409–16
Fields, Gary S., 318–22, 391–93
Fishlow, Albert, 52–57, 417–20
Guasch, J. L., 361–63
Hanushek, Eric A., 229–33
Harrison, Ann, 209–10
Hettige, Hemamala, 544–53
Hill, M. Anne, 263–70

Organization for Economic Cooperation and Development (OECD), 54, 87, 94, 406, 485; agriculture and, 347; economic growth in, 147; environment and, 527, 548; income distribution in, 401

Organized money markets, 129–32

Outward-oriented industrial development, 184–86

Ozal, Turgut, 503, 504

Pakistan: economic growth in, 85, 88, 91, 92, 93; education in, 237; family planning programs in, 246; women in, 283

Panama, 273

Park Chung Hee, 197, 497, 498, 499

Paternalism, 426

Per capita income, 3. See also Gross domestic product (GDP); Gross national product (GNP); in AK model, 123–25; as development measure, 5–7; divergence and, 114–18

Peru: economic growth in, 89, 91; economic reforms in, 58; health in, 258–59; poverty in, 18; women in, 276, 278

Petite bourgeoisie, 423, 449

Petrobas, 491

Philippines, 3; agriculture and, 414; deforestation in, 536; economic crisis in, 44; economic growth in, 39, 86, 90, 91, 92, 93; environment and, 523; family planning programs in, 247; industrialization and, 98; pollution abatement in, 545, 546–47; trade reform in, 192; women in, 273; women’s education in, 263, 268

Physical Quality of Life Index (PQLI), 7

Plantations, 86, 100, 180, 271

Pluralist theory, 453–54

Poland, 527, 529

Policy coherence, 496

Political stability/instability: deforestation and, 539–41; income distribution, investment and, 404–8; institutional indicators of, 472, 473, 474–75; in Sub-Saharan Africa, 458, 464–66

Pollution abatement, 544–53

Polonoreste projects, 528

Population, 2, 214, 241–48; agriculture and, 332, 333; deforestation and, 536–38, 541–42; of East Asia, 36; economic approaches to, 242–48; economic growth and, 82–84, 88–89, 91; environment and, 521; labor force and, 31–34; size of, 241

POSCO, 200

Poverty: balance sheet of, 35; burden of, 18–35; capabilities and entitlements in, 30; decline in, 36; environment and, 521; extent of, 19–20; health and, 259; income inequality, economic development and, 387–90; in India, 18, 36, 61; in Latin America, 54–57; women and, 18, 215, 275–79

Poverty gap, 19

Poverty line, 6, 18, 19, 54–55, 115

Prebisch, Raúl, 52

Predation, 476, 479–80, 481, 487, 491

Price controls, 451

Price distortions, 36–37, 526

Prices: agricultural, 331, 337–38, 366–67, 368–69, 448; factor, 175, 176, 178; food, 254–55; in India, 448–449; service, 13–17

Primary export substitution (PES), 171, 173

Primary import substitution (PIS), 171, 173

Primary products, 155–56

Primary school education, 234, 237–39, 240, 263–64, 265, 266

Primary sector surplus, 180

Principle-agent approach, 508, 509

Privatization, 96

Probabilistic migration model, 292, 323–27

INDEX 575
Producer-driven chains, 204
Productivity. See also Agricultural productivity; factor proportions explanations, 17; growth accounting with human capital stocks in, 220–22; Kravis-Heston-Summers explanation for, 13–15
Profit effect, 366
