A joke is a short humorous piece of oral literature in which the funniness culminates in the final sentence, called the punchline. In fact, the main condition is that the tension should reach its highest level at the very end. No continuation relieving the tension should be added.

Math jokes: I know that math is not for everyone. Many find it difficult and don’t see the use of it. I personally find math very logical and easy. Define jokes. jokes synonyms, jokes pronunciation, jokes translation, English dictionary definition of jokes. n. 1. Something said or done to evoke laughter or amusement, especially an amusing story with a punch line. 2. A mischievous trick; a prank: played a joke...
