RC Reading Counts
These years are a critical bridge to the middle grades where the tendency is to be less personalized and focused on individual needs. Supporting Struggling Readers and Writers provides teachers. The teacher's knowledge matters: knowing which skills to teach and when, teaching reading skills in balanced reading programs. Classroom organization matters: access to books and writing materials, classroom routines, community reading, "just right" reading, "on your own" reading. Explicit instruction in phonemic awareness and phonics matters: effective word study instruction, assessment, building decoding fluency. Explicit and strategic instruction in comprehension matters. Response to reading matters: types, contexts, purposes and assessing reader response. Assessment matters: frequency, context and type. The amount of text that children read matters. Struggling readers at the middle level need help using reading strategies effectively in order to become strategic readers. Middle level teachers need both to model and to teach how to use a variety of reading strategies that will help struggling readers become independent. This article deals with the development of the KWHHL strategy. Ganske et al., (2003) surveyed elementary teachers in several states and observed that they were most concerned with how to support their struggling readers and writers. Clark, Deshler, Schumacher, Alley, and Warner (1984) maintain that teaching students learning strategies, such as self-questioning, is one approach for meeting the needs of these readers.
