Linguistic Criticism

by Roger Fowler

Linguistic criticism and linguistics - Jstor A mode of literary criticism that focuses on the linguistic structure of a text pioneered by English linguist Roger Fowler. It is particularly noted for its interest in the question of the relationship between language and literature. Linguistic criticism not only shows students the usefulness of grammar but also improves their comprehension of literature. For instance, a study of stress, pitch, and intonation is a critical component of linguistic analysis.

ScienceDirect A fruitful, well-established development in literary studies has been the application of ideas drawn from linguistics. Linguistic Criticism introduces the reader to the relationship between language and literature. This is a critical component of linguistic analysis.

Linguistic Relativity: Criticism. Linguistic philosophers like Eric Lenneberg, Noam Chomsky, and Steven Pinker have criticized the Whorfian hypothesis and do not accept most of the inferences about language and behavior put forth by Whorf. They claim that his conclusions are speculative since they are based on anecdotal evidence and not on results of empirical studies. Another criticism that this hypothesis faces is the problem of translatability.
